Ok great, this is helpful to know. I didn't know about the larger maps, but that makes sense and would be helpful to review on occasion. I am happy to follow up with her and let her know our thoughts.
Thanks for the feedback!
Leah

Hi Leah,

Yes, I receive a hard copy, too. A couple positives of the hard copies are AECOM usually sends large paper maps of the area that we can lay on a table in a conference room and analyze to decide where more sampling needs to be done. Do we need them right? Probably not and it would probably make more sense to ask Kathy to send them as we need them.

The other positive is, sometimes it is loud in the office and I go to a conference room or somewhere else in the office to work. Since I can't pick-up my monitors and take them with me and the laptop screen is small, it is nice to have data in another file. However, as you said, we are not in the office right now, I have a large monitor at home (I bought it because I couldn't take this teeny laptop screen anymore), and I only go to the office occasionally. Kathy probably already printed these reports, but I think your suggestion is good. We don't need these right now. I have years' worth of them in my cube and it would be helpful to stop receiving these unless we absolutely need them because I don't want more files.\

Sorry for thinking over the e-mail. That was probably more than you want to hear.

Since it is your idea, do you want to tell Kathy, after this report, we would only like the electronic files, but we may occasionally like a large paper map?

Thank you for raising this,
Jenny

Hi Jenny – do you normally get a hard copy of this report as well? I don't see why it is necessary to send, especially since I am never in the office to receive it. Please let me know what you think. Thank you!

Leah

Subject: WW QPR #16 and 2020 Annual report

Good Afternoon,

Attached please for the PDF of the Quarterly Progress Report No. 16 and 2020 Annual – 2009 Consent Order as Amended. Note that the Washington Works Plant has a new Plant Manager, Ms. Nicole Newell. Please let me know if you have any questions about this report. We will be preparing the hard copies to tomorrow.

Leah – we normally one make one hard copy. Is that ok or do you need more? Also, should we send the hard copy to your address in the submission letter or would you like it sent somewhere else?

Thank you.

Kathy
